

Permanent Make Up Pen

A superior solution using the Elliptec motor

Current Solutions are...

- Noisy
- Difficult to guide because of vibrations
- Dept of penetration not accurate and reproduce able
- Dept of penetration is not adjustable
- Most of the time low quality products

Customer benefits

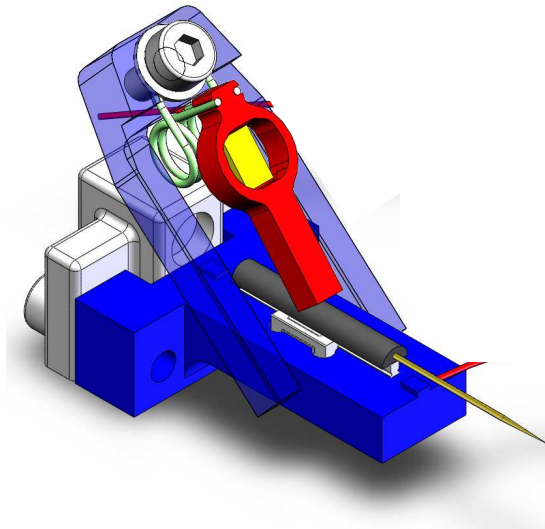

- High accuracy
- Number of punctures can be freely chosen
- Dept of puncture penetration adjustable
- Improved hygiene: disposable needle / linear drive unit

Linear Drive Unit

Needle Positioning

- Very high acceleration and precision
- No vibrations, no noise
- Light weight (few grams)
- Battery operation
