

# NEW!!!

## DUST-REPELLANT CLEANER AND PROTECTIVE COAT

FOR PRECISION QUALITY  
GLASS AND PLASTIC  
SURFACES . . .

# CLEAR \* PLUS™

CLEAR PLUS is a newly developed and proved formula designed to maximize the best characteristics of all sort of glass and plastic surfaces through which, or from which light is transmitted.

CLEAR PLUS protects the surface reducing the possibility of abrasion and scratching.

CLEAR PLUS contains ISO-STATIC, an ingredient that repels dirt, dust, chemicals, salts and fingerprints.

CLEAR PLUS enhances the clarity of optical glass or plastic.

CLEAR PLUS prevents fogging when warm moist air comes in contact with cooler glass or plastic surfaces.

CLEAR PLUS provides a long-lasting coat that requires only minimum maintenance.

**Ideal for the serious photographer . . .**

for camera lenses, projector lenses, telescope lenses, enlarger lenses and reflectors . . . even photo negatives.

**Many business applications . . .**

for photocopier "windows", CRT terminal safety glass, video equipment, scanners, viewers, prisms and microscopes.

**Excellent for household and transportation use . . .**

for sliding glass doors, French door panes, mirrors of all kinds (especially those that fog up in the bathroom), regular oven and micro-oven windows, TV safety glass; car, boat and airplane windows and instrument glass covers.

CLEAR PLUS is available in squeeze bottles, spray pump dispensers or aerosols.
